In the Name of Allah, the Most Gracious and the Most Merciful

Praise to Allah and prayer and salute for his Prophet (peace and blessing be upon him) and his close family members and his companions as well.

The mass media have reported the sad and grievous news regarding the campaign led by a group of people whose hearts are full of hatred toward Islam and his Prophet Mohammad (peace & blessings be unto him).

A series of verbal and written attacks on the Prophet Mohammad (peace and blessing be upon him) and aiming to give a wrong and bad image of him, emanated from Christian Organizations and individuals full of hatred [1] and from journalists like those from *Jyllands-Posten* who mocked the absolutely best of humankind and the most perfect among the prophets. Whoever would read the biography of the Prophet Mohammad (peace and blessing be upon him) will realize that mankind did not know a person more virtuous than him, nor did it know a person fairer, more charitable, more merciful than him, (peace and blessing be upon him). No message among all message of the prophets before him was more perfect than his message, neither more suitable, nor fairer and more merciful for mankind than his message. The message of the Prophet Mohammad (peace and blessing be upon him) asserts the obligation to believe in all the prophets, to respect them and venerate [2] them as well. This message emphasizes about the fact that all the prophets must be protected and must be above any censure and attack. This message gives a special importance to the story of the prophets, especially those of Moses and Jesus (peace and blessing be upon them).

Whoever denies the Prophet Mohammad (peace and blessing be upon him) the last of all the prophets, refutes his message, or lowers him has actually denied all the prophets and has lowered all of them. Though there are some wicked people having vile instincts and trying to mock the Prophet Mohammad (peace and blessing be upon him) and laugh at him; they have caricatured him describing wrongly and giving him improbable characteristics: They have produced twelve (12) ridiculous pictures representing the prophet (peace and blessing be upon him) in a grotesque manner, among them one pictures him in a turban having the shape of a bomb. We reply to these criminals and to those who support them whether in Europe or United States by saying: **You are comparable to a person who accused somebody of a crime the latter did not commit and actually the doer is the accuser himself.**

You have to know that the Prophet Mohammad (peace and blessing be upon him), the right-guided Caliphs, and his Companions as well had never built weapons' factories even the most rudimentary one, neither had they built sabers and arrows' factories, nor atomic bombs, intercontinental missiles, massive destruction weapons. The Prophet Mohammad (peace and blessing be upon him) had built no weapons factory because he was sent as a mercy for the whole mankind and to guide humankind to the path of happiness in both this world and the Day of Judgement. Respecting the rights of God, their Creator, by obeying Him and worshipping Him, will fulfill all this. This is the aim behind the creation. Whoever refutes this has committed a crime and for which he would deserve to be punished by the Lord and the Creator of the universe.

Regarding you, western people, people who claim to be civilized, your different constitutions and laws spoil and ruin the moral values. They allow you to commit whatever is made illicit by God such fornication, homosexuality, and usury, a gnawing worm in the Economy. They allow you to consume flesh of dead [3] animals and pork. The consumption of this latter was proven to affect negatively the individual eliminating in him the jealousy toward his family members, his wife, his daughter, or his sister; he becomes indifferent to any of them whether they have illegal sexual intercourse with strangers or they flirt with them.

All these things are vectors of the ruin of civilizations and all prophets have prohibited them. Actually, you are the ones who have designed the bombs, destruction weapons, and destruction machinery and tools such as jetfighters, tanks, and intercontinental missiles. You have designed them using your evil minds and brains which do not think but attacking people, injustice, and enslavement of mankind by wounding people, killing them, or controlling their wealth. These minds do not think but to annihilate whoever tries to oppose you or to stop or refrain your violent and attacking projects. All these projects you present them rudely in the pretext of civilization, respect of human rights, freedom, and justice! Anyone among mankind endowed with intelligence and reason knows this truth and your black history, full of bloodthirsty actions and barbarism. This barbaric history was written either by your opponents or by your allies.

However, whoever ignores this should read your history of colonization of the world or read at least the history of the two world wars during which you were the principal actors and read as well the statistics related to them and their bad consequences. The number of dead people during only World War I reached more than 10 (ten) million of young men whereas the number of those suffered wounds and mutilation for life was more than 20 (twenty) million. World War II had left behind it 17 (seventeen) million of soldiers and 18 (eighteen) million of civilians who passed away. All this happened during five years and a half.

Experts evaluated the military expenses to be 1100 billion Dollars whereas the losses caused by the war reached 2100 billion Dollars. These statistics are not taking in consideration the total destruction of several cities and the flood and the blaze that took place in farming lands causing the loss of livestock and the destruction of industrial factories and ore mines [4].

Hiroshima Bomb

In the above-mentioned book, the author states: It is prompt at this level to speak succinctly about this first atomic bomb of the history of mankind. He quotes the words of a Japanese witness who made the following declaration to Marcel Jeannot, a representative of the Red Cross:

"Suddenly, a pale pink glimmer appeared in the sky accompanied by a very strange earth quake and followed right after by a suffocating wave of heat and violent and strong gust of winds striking whatever they meet in their way. Within just a few seconds, thousands of people in the city were burned alive. Passerby and people sitting in the city died from the intense and extraordinary heat spreading everywhere. Other persons burned to a deadly degree went into death throes by roaring from pain. Everything standing up in the region, walls, houses, factories, and other buildings, was demolished. They were transformed into a cloud of dust and debris that rises whirling toward the sky. The trams were fired out of the rails as they had suddenly lost their equilibrium. Trains were fired too in the air, as they were only tiny toys. Horses, dogs, and cattle suffered the same fate as humans. Whatever was alive lost its life in an atrocious and terrible manner. Trees disappeared in the blaze. Rice paddies lost their green color. Green plants were fired, as they were dry straw. Things beyond 'the deadly zone' were affected too; houses were destroyed to form a pile of wood, tiles, and pillars. They were demolished like carton houses and this over a radius of 10 (ten) kilometers. Survivors were circled by the fire. The rare survivors who took refuge in shelters passed away after 20 or 30 days of terrible suffering due to the deadly effect of gamma radiation. In the afternoon, the cruel fire started to lower in intensity then at last extinguished since it found nothing to eat. Hiroshima turned into nothingness."

These are some traits of your so-called civilization that you please to praise. A civilization that you are proud about claiming its superiority over Islam. You still augment in injustice of all kinds and in depravity.

You still diversify the tools of massive destruction weapons and this – swearing by Allah- is a manifestation of a deep bestiality and a cruel animosity. Allah has said in the Qur'an: **..They have hearts wherewith they understand not, they have eyes wherewith they see not, and they have ears wherewith they hear not (the truth). They are like cattle, nay even more astray; those! They are the heedless o­nes.** (Al-A'raf 7:179)

Make these bombs, especially those of Hiroshima and Nagasaki, crowns and ornaments decorating your heads and those of your governors [5]. Make the massive destruction weapons fangs and claws allowing you to attack animals and mankind. **{And soon will the unjust people know what vicissitudes will their affairs take.}** (Ash-Shu'ara 26:227)
